

Molly Wain

Molly has been an outstanding student at Epping St Johns. Since joining ESJ in Year 7, she has been a model student and has accomplished many achievements, ranging from academic awards to sporting successes.

Molly joined the school football team in Year 7 and immediately stood out due to her skill level, athleticism, reading of the game and communication amongst her peers. Her dedication to school sports teams has continued to develop and she became one of the stand out players on her team. In addition to football, Molly has continued to show an interest in other sports and has represented the schools athletics team, rounder's team and has also taken an active role in the sports leader programme which works with local Primary schools.

As previously mentioned, along with her sporting contributions, Molly has also performed academically and has represented ESJ at the Jack Petchy Speak Out Challenge – an initiative that helps students show their capabilities to their peers and communities and providing them with the confidence to speak in front of large spectators. Furthermore, Molly has also achieved her Duke of Edinburgh Bronze Award which required Molly to complete a skills section, physical section, volunteering section and expedition. This signifies what an all rounded student Molly has become.

I would highly recommend Molly for any programme and believe she has all the attributes to be a success in any endeavours she chooses. This is down to her commitment, dedication and resilience.

Kind regards,

Alan Croft
