

Tiana Campbell – Player Profile

Tiana has come through the pathway at Plymouth Argyle from a very young age and has been one of the strivers throughout her time with us at the football club, once Tiana turned 16, she broke into the Women's set up coming straight into our Women's First Team and bypassing the U23's squad.

Tiana is currently playing for us in the Women's National League Southern Premier Division which is Tier 3 in the Women's football pyramid and only 2 leagues below the Women's Super League. Tiana played in 18 out of our 26 games this season and only missed the last few games of the season due to an injury to her hip.

Tiana is a very versatile player and can play in a wide range of positions, and this season she has played in numerous positions (Right Back, Centre Midfield, Right Midfield). Tiana has huge talent and will continue to grow within the game.

Tiana has a wide range of attributes which has helped her step up from youth football into senior women's football, she is physically strong and has good strength on and off the ball, she is comfortable receiving the ball under pressure and has displayed a wide range of receiving skills this season to escape pressure and to play forwards. Tiana is a very confident player and believes in her own potential, which is excellent to see from someone so young, as coming into a First Team environment at such a young age can be challenging but Tiana has taken this in her stride.

Tiana has very good knowledge of the game and her understanding of her roles and responsibilities within the team has grown within the last 18 months, she understands her role as an individual and as part of a unit and team. She has also improved her decision making within the game, both in and out of possession, as this has had to be quicker due to the huge difference in speed between youth and adult football.

Tiana has a good attitude towards learning and what's to continue to improve herself as a player, she applies herself well in training and has shown good resilience when things haven't gone her way this season.

Overall, Tiana is an excellent player for someone of her age and we are really pleased with how Tiana has progressed on and off the field since coming into the First Team, and we look forward to seeing her continued growth at the club.

Many Thanks

Ryan Perks

Plymouth Argyle Women's First Team Manager
