To whom it may concern

I am writing to provide a letter of recommendation for one of our Year 12 students, Freya Sherwood (DOB 11 August 2008) who joined us in September 2024.

Freya is a committed and engaged student, striking an excellent balance between her football career with Bristol Football Club and her academic studies here at school. Freya is a bright and articulate student and is very popular amongst her peers. She has a real determination to succeed both in her academic studies and with her professional sporting career.

In Physical Education Freya shows a proactive approach to her learning, consistently seeking feedback and identifying ways to improve. She demonstrates strong critical thinking skills, providing well-rounded responses that showcase depth of understanding and analysis and is working to improve her assessment grades consistently.

Freya is a confident member of the Biology group, showing excellent organisational skills and the ability to meet deadlines despite her very busy academic and sporting schedules. Freya's written work is accurate and she has an excellent memory for the many details involved in A Level Biology.

In Geography Freya has consistently demonstrated an inquisitive and enquiring geographical mind. She displays intellectual curiosity in each of the topics covered so far and uses this to allow her to delve deeper with her knowledge and understanding and critically evaluate information presented to her. With her strong analytical skills, she is applying a range of geographical concepts and theories to explore and understand complex real-world issues. Her ability to think critically and consider multiple perspectives allows her to approach geographic problems from a well-rounded viewpoint. Strong communication skills have enabled her to effectively articulate her ideas and findings, which are continuing to evolve as her geographical and analytical language is broadened through the course.

We have no problem in fully recommending her to your establishment and would be happy to talk via email or Zoom/Teams meeting, should you need any more information about this much valued student.

Yours faithfully

Mrs Areti Bizior
Headmistress
