Principal: Clare Berry

Dear Sir,

Elsa Myers was a student at Malcolm Arnold Academy from September 2020 – June 2025. I have personally known Elsa for the duration of her studies at Malcolm Arnold and as Assistant Principal for Culture & Standards with direct responsibility of Elsa's year group & maths teacher.

Elsa is a scholar who worked tirelessly at her academics whilst balancing her athletic pursuits including football. Elsa was committed to her studies which is demonstrated in her academic outcomes at GCSE but also through her achievement points. Elsa achieved 709 positive points in her final year, with her school career averaging 486 positive achievement points each year. Elsa's attendance to school was exemplary and her timekeeping always prompt. Elsa would represent the academy with pride and meet school expectations without question. Elsa was an ambassador for Malcolm Arnold during her time here and represented the academy in a variety of sports including athletics, football and cross country.

Elsa's positive attitude to schooling and life meant she developed a strong relationship with peers and staff. Elsa's friends didn't necessarily have the same common interests in sport but testament to her good character and mutual respect of all, Elsa developed a sound and supportive network of peers. Elsa can work confidently with others and her communication and quiet confidence is a strength. Elsa can also work independently and her determination to succeed individually was demonstrated throughout her studies and resulted in strong outcomes.

Elsa demonstrated resilience through her sporting commitments both in school and out of school and was wise to ensure her academic studies were not negatively impacted. Elsa's commitment is unquestioned, and she always puts 100% into any task or challenge both academic and extra-curricular. Elsa is a polite, well rounded young scholar who has a strong moral compass, and I have no doubt will be an asset to your college.

Yours Faithfully,

Miss Lauren Price
Assistant Principal
